

WASI

ENGINEERING

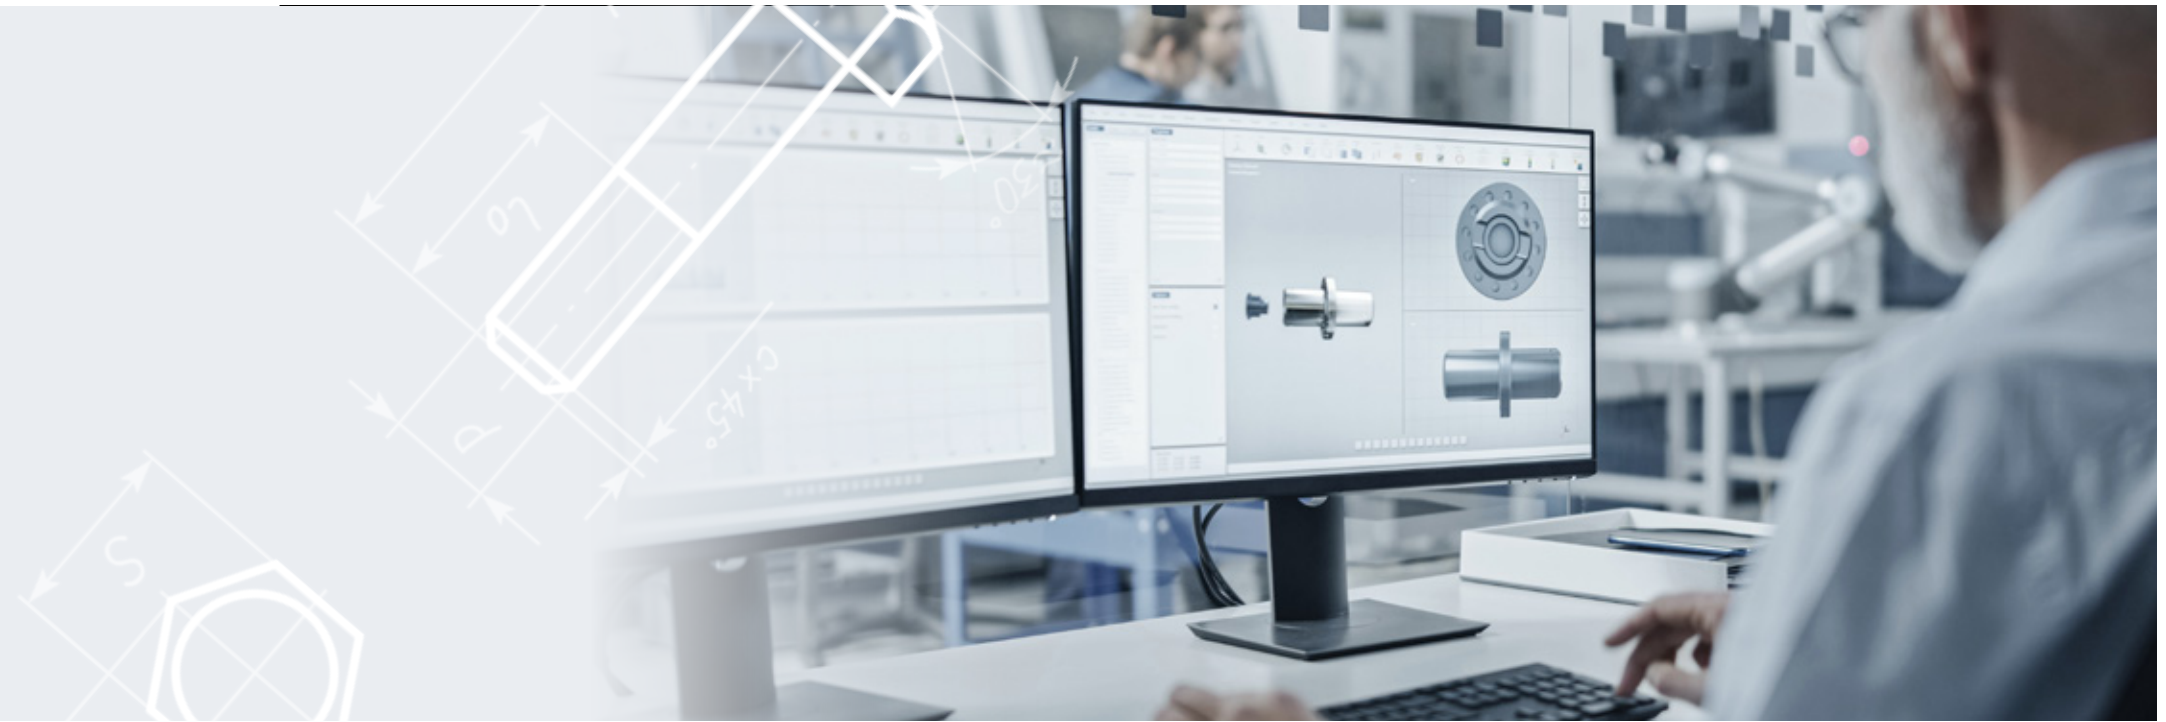

**YOUR PARTNER FOR CUSTOM
STAINLESS COMPONENTS**

YOUR ACCESS TO SUCCESS

OPTIMAL ENGINEERING OF CUSTOM PARTS

Thanks to the widest and most exhaustive range on the market, WASI ranks among the world's leading providers of stainless fasteners made of high grade steel, aluminium, and special materials.

Also the unique skills and extensive services WASI provides for the engineering of custom fasteners, C parts, and other stainless components enjoy the trust of a growing number of customers.

REALISING IDEAS – OUR CUSTOMISED END-TO-END SERVICES

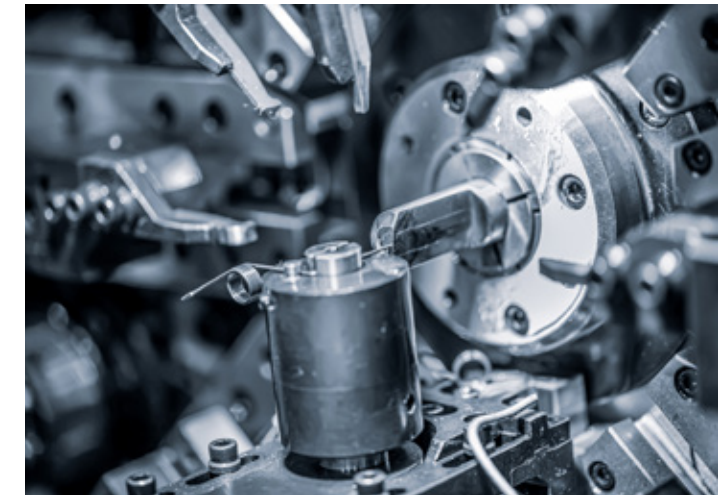

Whether prototype or series development, small or medium piece numbers, or mass production, the WASI specialists are your competent contact for custom solutions, special components, and drawing parts. Backed on sixty years of experience, we shall be pleased to advise you in developing solutions optimised to your technical and cost requirements.

The product concepts we generate together are translated reliably into practice – and our clearly structured project management ensures that everything remains within the agreed time and cost constraints.

WHY WASI?

- ✓ **OPTIMISATION OF DEVELOPMENT AND DELIVERY TIMES**
- ✓ **SELECTION OF THE MATERIAL SUITABLE FOR YOUR INTENDED APPLICATIONS**
 - › Stainless steel
 - › Aluminium
 - › Brass
 - › Steel
 - › Special materials
 - › Duplex
- ✓ **SELECTION OF THE OPTIMAL PRODUCTION PROCESS**
 - › (Cold) forming
 - › Turning and milling for complex geometries
 - › Punching
 - › Bending
 - › ...
- ✓ **SELECTION OF THE OPTIMAL COATING**
 - › Corrosion protection
 - › Configuration of the friction coefficient
 - › Screw retainers
- ✓ **INDIVIDUAL ADVICE FOR YOUR PARTS**
 - › Polishing
 - › Assembly
 - › Laser lettering
- ✓ **FULFILMENT OF ALL CUSTOMER SPECIFICATIONS**
 - › Advanced quality planning
 - › Initial sampling processes
 - › APQP, VDA, PPAP, etc.
- ✓ **EXTENSIVE INHOUSE QUALITY MANAGEMENT**
 - › Computer aided quality assurance (CAQ)
 - › Material testing
 - › Nondestructive product testing
 - › Generation of test reports
 - › Batch traceability
