Wuppertal, August 2022

EU Chemicals Regulation EG 1907/2006 - REACH

Ladies and Gentlemen,

Thank you for your enquiry regarding the EU Chemicals Regulation (REACH) and the resulting obligation to report in ECHA's SCIP database.

As dealer / importer of articles (screws, nuts, small parts, etc.) we take our obligations from the REACH VO seriously.

We are not obliged to register under the REACH Regulation, nor are we obliged to notify under Article 7 II of the REACH Regulation.

According to Art. 33 of the REACH Regulation, information must be provided within the supply chain about substances of very high concern according to the current candidate list in articles with a concentration of more than 0. 1% by mass.

As this is not the case for any stainless steel alloys that we supply, we are not affected by the Regulation and therefore do not need to register in ECHA's SCIP database.

All our products from the material groups A1, A2, A4, A5, D6 (Duplex) are compliant with the EU chemical regulation EG 1907/2006 - REACH.

Further information from Fachverband des Schraubengroßhandels e.V. (FDS) can be found in the attached leaflet.

If you have any further questions, please do not hesitate to contact us.

Yours sincerely
WASI GmbH
