Chemical Thread-Locking Agents – Precote

Dear Sir or Madam,

In accordance with our obligation to provide information under the CLP Regulation (EC) No. 1272/2008, we would like to inform you that the following chemical thread-locking agents have been newly classified in the category Carc. 1B:

- Precote 30-3
- Precote 80-3
- Precote 85-3

These products are now assigned the hazard statement H350: "May cause cancer."

Based on our current knowledge, only the accelerated-curing Precote variants are affected. The following products are not affected:

- Precote 30 and Precote 30-8
- Precote 80 and Precote 80-5
- Precote 85 and Precote 85-8

If you have already used or placed on the market products containing these chemical thread-locking agents, we kindly ask you to forward this information to your customers and affected users as appropriate.

For any further questions, please do not hesitate to contact us.

Yours sincerely,
WASI GmbH
